OF THE

RECEIPTS AND EXPENDITURES

OF THE

TOWN OF SANFORD

From Feb. 22, 1895, to Feb. 22, 1896,

AND A

Report of the Supervisor of Schools.

SANFORD

Jas. H. Goodall, Steam Printer

1896

DISCOUNT ON TAXES

Will not compare with the amount you can save on your Clothing bills by purchasing at first cost.

We have manufactured a large line in the

Latest Spring Styles

goods that we can guarantee, for we follow them back to the looms from which they were born, while the trimmings are of a better quality, and the work, instead of being done in sweat shops, is made in the homes of Sanford people.

LEADING NOVELTIES in HATS and FURNISHINGS.

TRUANT OFFICERS.

CHAS. F. MILES, JOHN J. MERRILL.

REPORT OF SELECTMEN, ASSESSORS, AND OVERSEERS OF POOR, FOR YEAR ENDING FEB. 22, 1896.

The Selectmen submit herewith their annual report, and in doing so wish to acknowledge the obligation of the town to the Mousam River R. R. Co. for furnishing the labor for putting in the pipe laid to drain the square and lower Main street at Sanford, and to Mr. Thomas Goodall for permission to connect the same with his sewer; and to the Sanford Mills Co. and Goodall Worsted Co. for grading on streets and walks in the vicinity of the mills; and to B. C. Jordan of Alfred, for a contribution of \$25 toward rebuilding the bridge at Linscott's mill. We have dropped the item of \$16 80 against Ed H. Emery, for school books paid twice in 1892, finding only two orders for that amount drawn that year, and each of those for different bills.

The names on the Inventory have heretofore been badly mixed. This year we have arranged them in strictly alphabetical order, and have added a complete description of nearly every piece of property, and in doing so have discovered several parcels omitted from the tax list. With the additions and corrections made this year, we think a new inventory will not be needed for several years.

We believe it would be economy to provide more house room on the town farm, as we are often compelled to help persons outside who could be better and more cheaply cared for on the farm.

4 REPORT OF OFFICERS OF SANFORD—1895.

Last year the outstanding notes against the town amounted to \$12,374 00; and while, by the commendable diligence of collectors, they have been reduced to \$8,124 00, we think it would be advisable to raise about \$400, to pay interest, instead of drawing so heavily on the general fund.

The constables have requested us to say that by the dog law of 1893, all dogs are required to be licensed "before the first day of April," and that "within ten days from the first day of May," warrants must be issued to the officers to kill all dogs not both licensed *and* collared, (*nota bene*,) and enter complaint against their owners or keepers.

Heretofore they have taken the trouble to notify delinquent dog owners before taking action; but now they think every one must know the law and that they should begin to kill dogs and enter complaints, without warning to any one, as soon as warrants are placed in their hands.

ASSESSMENTS AND VALUATION, 1895.

SANFORD, ME., Feb. 22, 1896.

Respectfully submitted,

GEO. W. HANSON	} Selectmen of Sanford.
H. B. ROWE,	
JERRY A LOW.	

This is to certify that I have examined the accounts of the town of Sanford as shown me by the selectmen, and find them correct as shown above.

BEN. RAMSDEN, Auditor.

Sanford, Me., Feb. 22, 1896.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

FOR THE YEAR ENDING FEB. 22, 1896.

The Superintendent of Schools would respectfully report as follows:

The total number of scholars in town at the last annual enumeration, between the ages of 4 and 21, was 1549.

The whole number of scholars actually registered during the year was 1204. The school year comprised three terms of ten weeks each, except in the two large villages, where, as was the case last year, one of the terms lasted twelve weeks. Some new pupils having moved into Division 7, the school there was re-established and the fall and winter terms were taught as usual. At Sanford it was found necessary at the beginning of the year to establish a new school of the primary grade, and this was done, a room being hired outside the school house and fitted up for the purpose.

At Springvale there are two primary schools with Misses May T. and Susie E. Frost as teachers both having special characteristics for the work. Two intermediate schools have Misses Cora B. Dillingham and Ella F. Moody as teachers, both progressive and specially interested. One grammar school, which, under the tuition of Rev. Frank G. Davis, is doing remarkably well, and the High School is presided over by Frank P. Knight, assisted by Miss Harriet E. Johnson, both of whom have done excellent work for many terms. Miss Johnson has charge of the musical department here and is producing excellent results. The pupils of the High School have, by the aid and under the direction of their teachers, purchased and paid for a fine new piano, costing \$250, during the year; a fact which speaks volumes for their energy and also for the

readiness of their parents to assist them, for the larger part of the money was obtained by entertainments and a most successful fair.

In the village of Sanford there are four primary schools, under the care, respectively, of Mrs. May I. Richardson and Misses Clara Burroughs, Ethel M. Hobbs and Lillian Ridley, each of whom manifests peculiar ability for the task, and all of whom have so many pupils that the establishment of a fifth primary school is only a question of a very short time. There are two intermediate schools, with Miss Blanche Roberts and Mrs. Jennie Weymouth as teachers, each doing good work. Two grammar schools, with Misses Nellie O. Littlefield and Augusta W. Mendum as teachers; capable and progressive, each of them. The High School was for two terms under the direction of O. Howard Perkins, a teacher who won and retained the liveliest respect and esteem of his pupils. He resigned in December to enter a divinity school. The committee were fortunate enough, however, to obtain the services of Frank C. Thompson, A. B., of Lewiston, who has given excellent satisfaction. Miss Jennie Mildram has been the assistant here; is an experienced teacher; has charge of the musical training in these schools and has the confidence and respect of all the pupils.

In the outside divisions, two teachers, Misses Bertha Perkins and Lillian Villaire, having accomplished good work, resigned. The following teachers finished the year, and, working without many of the aids which are afforded in the village divisions, have yet made records of which they may well be proud: Misses Charlotte Feeney, Edith Bedell, Mabel Ridley Belle Perkins, Florence Morrill, Carrie Goodwin, Lena Harmon, Maggie Fall, Etta Stanley, Daisy M. Ford, Etta L. Tebbets, and, in Division No. 12, Mr. Geo. E. Davis.

Miss Isabel Furbush also taught two terms, one of which, an unfinished term in Division 2, was made vacant by the resignation of Miss Ina Merrill, an experienced teacher, on account of ill health. Miss Furbush also gave excellent satisfaction. Henry M. Mitchell, a student in Limerick Academy, taught one term in Division 2, giving good results.

Plans were made early in the season for the expenditure of the \$700 appropriated for finishing two rooms in the upper story of the school house in Division 2. But when sealed proposals were asked, the bids returned would have used all the money, leaving none for furnishing the rooms. It became apparent also to the committee that there were other objections. Aside from requiring pupils to climb so many flights of stairs, it would be impossible to have water on the third floor, from the village service, on account of the height. The rooms would have required a new boiler, since the old one has been pushed to its utmost capacity at a most lavish outlay for fuel, to keep the present rooms warm, and the new sanitary arrangements from freezing. The appropriation was therefore left untouched, and the committee recommend that a further appropriation be made, and a new building be erected on the other side of the river, sufficiently large to meet the growing requirements of the village of Sanford, which returned at the last school census 937 pupils. Several times during the winter the complaint has come to me that pupils of the primary grades, living on the other side of the river, could not attend on account of the distance they were obliged to travel through the snow. The room in the upper story of the present house could be finished at small expense into a convenient auditorium, which is much needed for graduations, lectures, etc., and this is the best purpose for which it is available.

Those buildings on which the insurance has expired, have been re-insured for a period of three years, thus making a saving to the town of one year's premium, about \$150. The two boilers in the large school houses have also been insured. This secures their inspection at stated periods by expert engineers, which must be a source of satisfaction to every intelligent citizen. No insurance expires this year, therefore we shall require no appropriation for this purpose.

An appropriation of \$800 was made at the last town meeting for sewerage in Divisions 1 and 2. The best terms for which the Committee could get the work done in Division 2 used up more than \$600. It was thus easily apparent that nothing could be done in Springvale for this purpose without exceeding the appropriation. Mr. Goodwin, of the commit-

tee thought, and his associates concurred, that the distance between the two villages being so short, the sewerage from the Springvale school house ought not to be washed into the river, lest it spread disease at Sanford, more especially as so much ice is cut from the Mousam mill pond and used in that village. But the present sanitary arrangements are altogether inadequate, and your Committee recommend that a further appropriation of \$300 be made, and with the unused balance of the last appropriation, be used for the erection and improvement of convenient toilet rooms on the Springvale school grounds.

We have not yet a sufficient number of weeks' school in the year. Pupils in the various grades have not sufficient time in which to master the studies required by our course of study, which is condensed as much as it can safely be. We are behind in this respect all the towns and cities in the State of equal population. The Committee therefore recommend that the appropriation for support of schools be made \$5000.

The schoolhouse in Division 13 cannot be used longer without serious danger to the health of its occupants. The Committee recommend that an appropriation of \$350 be made for the purpose of erecting a convenient building in this division for school purposes, and that the present building be used for a shed.

Repairs on the other school buildings will require at least \$500 and the Committee ask for the appropriation of that sum for repairs.

The High Schools need chemical apparatus for simple experiments required by their studies, and the Committee ask for an appropriation of \$200 for this purpose, \$100 for each village.

The work of selecting new books, which were so much needed, proved to be an arduous task. Many meetings were held and the merits and demerits of various books were conscientiously canvassed. Harper's Readers, Werner's, Coggs-well's and Wentworth's Arithmetics, Milne's Algebras, Potter's Geographies, Kellogg's Physiologies, Barnes' Histories and Meservey's Political Economies were purchased and have proved remarkably satisfactory. 1200 readers were necessary,

600 Arithmetics, 400 Geographies, 300 Pnysiologies and other books in proportion. These all had to be labelled, numbered and carried to the several divisions, sometimes requiring several trips, the old books gathered up, packed and sent away. Credit was given on the bills for old books thus returned amounting to about \$300. Other new books remain to be bought however, and the Committee ask for an appropriation of \$500 for school books and supplies.

The unexpended balance of last year, as it appears in the report of the Selectmen appears large, but the citizens will remember that a long term's expenses in the Sanford Division was then unsettled, and those bills had to be paid from that balance at the beginning of the year, and before the work of the present year was commenced. The schools have made commendable progress, and with the improvements which we have suggested will do still better work.

I cannot close this report without remarking upon the harmony which has marked the work of the Committee during the year. The utmost cordiality has prevailed, and each member has seemed to strive to outdo the other to work for the good of the schools. With emulation like this the best results are sure to be attained.

FRANK H. DEXTER, Supt.

SAMUEL SMITH, JR.

SPRING OF 1896.

We offer this season the Largest and Best Stock of
DRY AND FANCY GOODS, CLOAKS AND SHAWLS, IN THIS SECTION. Every one invited to visit our store.

We have in stock at all times an Elegant assortment of Ladies', Gents' and Children's **Hosiery and Underwear** at the very lowest prices. But for tremendous bargains in

In the above we make no allowance for possible abatements on outstanding taxes, nor do we reckon as a liability the suit of Lovejoy against the town for damages alleged to have been sustained on the highway near the foot of Gowell's hill after the flood last spring, and we do not think there will ever be any liability in the suit except for counsel fees and expenses.

SANFORD, ME., FEB. 22, 1897.

Respectfully submitted,

GEO. W. HANSON	} Selectmen of Sanford.
H. B. ROWE,	
W. H. NASON.	

This is to certify that I have examined the accounts of the town of Sanford as shown me by the selectmen, and find them correct as shown above.

JOHN HARGRAVES, Auditor.

Sanford, Me., Feb. 22, 1897.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

— o —
FOR THE YEAR ENDING FEB. 22, 1897.
— o —

The progress made in the schools during the past year has in the main been very satisfactory. The usual difficulties have been encountered; new teachers have been employed in many cases; and in some places circumstances which could not be foreseen have complicated the work; but the general result is gratifying to the friends of educational advancement.

The enrollment of scholars brought a gratifying surprise, for the number as shown by the census was 1821, as against 1597 the previous year.

The work of procuring new books has been almost as exhaustive as during last year; the balance reported as unexpended last year had really been expended, as the books to that value were already in the hands of the Superintendent, and aside from this fact we have kept within the limits of the appropriation. The High schools have been provided with new and advanced text books of which they were much in need and the appropriation for new books during the ensuing year need not exceed \$300.

Since the introduction of the aqueduct water into the Springvale school building and the method which has been pursued of destroying such readers, etc. as had become apparently fit only for the conveyance of disease germs, the prevalence of several disorders which previously had interfered seriously with the schools in this division has been materially checked.

Some dissatisfaction was expressed in the Lion Hill division with the teacher who had been selected for the winter term, but the committee were satisfied that she had not been fairly

dealt with, and that she was abundantly qualified to teach that school and she was continued to the end of the term. The committee have labored as ardorously for the advancement of the schools in what are termed the out-districts as for the village schools, and the one purpose to labor for the general advancement of all the pupils in town, has been pursued undeviatingly.

Repairs to a considerable extent have been made in the school houses on Plummer's Ridge, Mt. Hope, Perkins' Division and South Sanford; and an equal number of houses will have to be repaired during the coming year. The committee are unanimous in the recommendation that a new school house be erected in the Lion Hill division, the present building has been in use for some forty years and is hardly habitable at the present time

The new house erected in the Oak Hill Division is a source of pride to the committee. The building is pretty, well designed, well constructed and has been furnished with such furniture as the best educators of the present day deem best suited for the use of pupils. Too little attention has been paid to some of these details in the past. People have seemed to think that any sort of a building, with any sort of furniture was suitable in which to confine children of tender years. We agree with the State Superintendent, who says in his last annual report :

"This is a question in which every citizen, rich or poor, learned or ignorant, exalted or humble has an equal interest, because whatever develops intellectual power, increases interest and knowledge, adds wisdom, gives larger views of life, better conceptions of citizenship, broader visions of duty, and in the end means financial prosperity and material growth to the committees which have intelligence enough to assume the responsibility of placing each citizen in such a position that he can make the most of the best in him. If the towns are to prosper they must depend for their prosperity upon the intelligence of their inhabitants. If one cared to use a figure of speech, he would not be straining a metaphor were he to say that it is ignorance that gives us the blackness of darkness in Africa, the night of Asia, the twilight of Russia; that it is education that gives us the sunrise glory of the United States and the approaching meridian light of the most favored localities in New England. In many communities in Maine but little effort has been made to secure a lot which is large enough for the school house; or one with the right kind of soil; or one provided with suitable drainage; or one favorably located. Here is a waste that cannot be estimated in words. They are

sources of degradation to the children who use them, and teachers are hampered and discouraged by being placed in such unfavorable surroundings. From the appearance of many school yards it is plain that some parents think it foolishness to have lawns in front of school houses, and that it is equally foolish for teachers and pupils to cultivate flowers in the school yards; and that the decoration of school rooms with flowers, plants, and leaves is a waste of time and effort."

It is true that these things should not become a fad or be carried to extremes, but the love of the beautiful should be fostered in every child, and without the expenditure of much money, but with a united effort by teachers, pupils and parents, a decided change can be made, and should be made on the grounds surrounding the school houses in this town. Let the good work begin and see if it will not be beneficial in more ways than one.

Not enough of our teachers attend the summer schools and teachers' institutes. Attendance upon these means of improvement should be made obligatory. Then we should see better results. In the Springvale division we have had the services of Rev. Frank G. Davis, principal; Misses Hattie Johnson and Susie E. Frost as assistants, for Miss Johnson left to enter the bonds of matrimony before the year expired and Miss Frost was promoted. Misses Cora B. Dillingham, Lillian A. Ridley, Ella F. Moody, May T. Frost and Mrs. Mabel L. Dow have had charge of the other schools here and all have been faithful laborers worthy of the highest commendation.

In the Sanford division, Prof. F. Clarence Thompson, principal; Miss S. Jennie Mildram as assistant; Misses Nellie O. Littlefield, Augusta Mendum, Mrs. J. D. Weymouth, Misses Blanche Roberts, Mary L. Trafton, Fannie Hobbs, Mrs. C. D. Richardson, Mrs. W. A. Libby, and Miss Ina Merrill have been hard at work and the result has been seen in the increased interest and better results than ever before. In the out-districts George Davis, Mercy Hooper, Edith E. Bedell, Mabel Ridley, Elizabeth Thompson, Sadie Morrill, Bernice Spinney, Isabel Furbush, Mrs. Carrie Allen, Marion Wilson, Lena Harmon, Maggie Fall, Etta Stanley, Belle Perkins, Charlotte Feeny and Fred I. Horne have made good records.
